Classic Lee Loader

More shooters have chosen the famous Lee Loader for their first reloading tool than any other. They realize it is all they need for good, accurate ammunition. In fact, at one time ammunition loaded with a Lee Loader held a world record listed in the Guinness Book of World Records for more than seven years. Millions upon millions of rounds have been reloaded with the famous Lee Loader. It’s the perfect tool for those who wish to simply try reloading, because it will pay for itself in just an hour or two. Find out for yourself how much fun it is to reload with the Lee Loader. Everything you need to begin loading one caliber!

LEE LOADER 40.98

www.leeprecision.com
RELOADING IS AN ENJOYABLE HOBBY, saves you money — and no manufacturer saves you more than Lee Precision, Inc. Our mission is simple: produce the best American made value in reloading tools. Our great prices come from patented, innovative designs. We are thankful to say that Lee Precision products are cast, machined and assembled in the USA.

A reloading press and a set of Lee Dies are all you need to start reloading. Lee Dies come complete with powder dipper, shell holder and instructions, along with comprehensive load data that tells you how much and what type of powder to use. Dies and presses last a lifetime, so buying what your budget allows makes the most sense. For those with a workbench, consider our Lee Bench Plate for the ultimate convenience in mounting your presses. If you don’t have a workbench, consider the Lee Reloading Stand, compact and very sturdy. If you have no loading equipment and are just getting started, you must consider that these basic steps need to be taken below.

Check out our complete line of reloading and casting equipment on our website, then visit your local merchant. If not blessed with a local dealer, one of the many online dealers will quickly and economically fill your order.

### Lee Reloading Stand

At last, a reloading stand built just for your reloading needs. The sturdy powder coated steel stand places your press at the perfect counter stool or standing height. Three-leg design assures absolute stability regardless of the floor condition. Rubber tipped legs suitable for any surface. The thick steel top is fitted with the patented, quick change Lee Bench Plate System with steel base block to fit all Lee metallic presses.

The stand also includes a sturdy steel shelf with two bench plate receivers that will neatly and securely store your extra presses or mountable accessories. Each leg has eight mounting holes that allow you to accessorize your stand with a multitude of bins, shelves or accessory racks.

**Dimensions:** 39” high x 26” wide x 24” deep

**Accessories**

- **Die Rack**
  - Sturdy steel rack with fasteners designed for the Lee Reloading stand. Conveniently holds your dies at the ready, especially helpful when loading small batches of ammo with frequent die changes. Can also be wall or bench mounted.
  - 90680 13.00

- **Bin and Bracket**
  - Sturdy steel bracket and parts bin. Includes fasteners to allow direct mounting to the Lee Reloading stand, or workbench. Perfect for holding bullets, cases and loaded rounds.
  - 90687 14.00

- **Steel Base Block**
  - Rigid, powder coated steel construction. First choice for mounting all current Lee Presses. Works with the Lee Reloading Stand and Bench Plate. Fasteners for mounting one Lee reloading press are included.
  - 90267 15.00

**Lee Bench Plate**

Includes steel base block with holes to mount any Lee press. Powder coated, thick steel plate mounts quickly and securely to any bench or tabletop. Wide steel plate distributes load, adding rigidity to the lightest bench top.

**Accessories**

- **Lee Bench Plate**

SELECTING THE BEST HANDGUN DIE SET

Lee handgun dies feature a carbide sizing die — simply the best way to resize straight walled handgun cartridges.

Select the **DELUXE PISTOL 4-DIE SET** when using mixed range brass or brass that was fired in others guns. The Deluxe set includes the Carbide Factory crimp die. This die allows you to separate bullet seating from the crimping operation. It makes setup much easier and the die has the added feature of a carbide resizer that does a finishing sizing pass on the completed round. This final sizing guarantees that any case that passes through the die will freely and reliably chamber in any gun.

The **CARBIDE & STEEL THREE DIE SETS** work fine when using a quality controlled source of brass, like cases fired only in your gun. More care is required when adjusting the bullet seat and crimp die, as seating and crimping occur simultaneously. Bullet diameter control is important when not using the factory crimp.

Lee Dies reload cartridges better, easier, more accurately and with fewer problems!

**Carbide Sizer**

All Lee straight walled pistol dies have tungsten carbide sizer rings. Carbide is so hard that it can only be ground and polished with diamond wheels.

This hard diamond polished surface eliminates the need for case lubrication — they will never wear out. Exclusive contour grind sizes closer to the rim than any other brand.

The collet held decapper is nearly unbreakable even if you misadjust it or deprime cramped military cases.

The decapper clamp collet accurately centers the decapper in the die. Should you over stress it for any reason, it harmlessly slides up without breaking. Easily reset with no limit to the amount of times it can be reset.

**Bullet Seat and Feed Die**

Universal free floating seating plug works with nearly any point style bullet. No need to change seater plugs for different nose types. Finger adjustable seating depth eliminates fumbling with pliers, lock nuts and screwdrivers to make simple seating depth adjustment. Die is tapered on end for use with automatic bullet feeders.
PISTOL DIE SETS

LEE DELUXE PISTOL 4-DIE SET 62.98

Includes carbide full length sizing die, powder through expanding die, bullet seat and crimp die and carbide factory crimp die.

Combines the world’s most popular carbide three-die set with the Lee Carbide Factory Crimp Die at a great price. No other die set at any price produces more reliable or accurate ammunition.

By separating the seating and crimping operation, you will benefit by greatly simplifying adjustment. More importantly, the Carbide Factory Crimp Die post sizes your case, thus, plus all the other exclusive features — make this the best die set money can buy!

LEE CARBIDE PISTOL 3-DIE SET 42.98

Includes carbide full length sizing die, powder through expanding die and bullet seat and crimp die.

We use a solid carbide insert, ground to a special contour that does not leave the objectional belt mark on the case, common to ordinary carbide dies. With a carbide size, no case lube is needed, and you don’t even have to clean your cases.

NO NEED FOR A TAPER CRIMP DIE; BETTER ACCURACY WITH LEE DIES.

Taper crimp dies are used to correct the problems caused by the improper expanding plug design or adjustment. They distort the bullet shank and reduce accuracy. Because the Lee Expander flares the minimum amount, consistent with easy bullet insertion, all of the flare is removed with the bullet seating die, thus eliminating the need for a taper crimp die.

LEE VERY LTD PISTOL 4-DIE SET 48.98

Includes steel full length sizing die, powder through expanding die, bullet seat and crimp die, and taper crimp die.

Same features as our 3-die carbide die sets, except the case must be lubricated. Includes taper crimp die.

LEE STEEL PISTOL 3-DIE SET 41.98

Includes steel full length sizing die, powder through expanding die, bullet seat and crimp die, and resizing lubricant packet.

Same features as our premium carbide sets, except the case must be lubricated.

Additional cartridges listed on www.leeprecision.com

ULTIMATE LOCK RINGS

90566 9.98

Lee Ultimate Spline drive lock rings. One wouldn’t think you could improve on a simple thing like a lock ring but we have. The new split clamp spline drive makes all other lock rings obsolete and clumsy to use.

We started with custom extrusion of high strength aluminum with a splined exterior surface. We split the ring and added a cross bolt that when even lightly tightened applies a vice like grip on your dies. No tiny set screws that easily strip or damage your die threads.

Then we added the famous Lee “O” ring because, no matter how securely you have the lock ring clamped to the die it will loosen in the press during operation without the friction of the “O” ring. The “O” ring allows you to finger tighten into your press and it will never loosen during operation. Perfect for old school presses that require you to thread dies, in and out. Kit includes a wrench for easy die removal.

LOCK RING WRENCH

90093 2.00

A handy, compact wrench makes the new lock rings a delight to use.

The lock ring wrench is now standard equipment on all Lee Dies. Update older Lee Dies or competitor’s dies.

LOCK RING (3-PACK)

90934 3.98

Lee Spline Drive Aluminum Lock-Rings are easy to adjust — just finger tighten — holds the adjustment rock solid. Package of 3. Will not loosen or move while reloading. Now standard on all Lee Dies. Update your older Lee Dies or competitor’s dies.

Lee Die Boxes

Perfect storage for dies. Made from tough, durable plastic.

ROUND DIE BOX 90535 5.50
FLAT 3-DIE BOX 90791 4.98
FLAT 4-DIE BOX 90422 5.98

Holds dies with Breech Lock Quick Change insert installed.

NOT PURCHASING LEE DIES?

YOU’LL STILL NEED A SHELL HOLDER.

ONLY LEE OFFERS A FREE SHELL HOLDER WITH EVERY PISTOL DIE SET PURCHASE

Others charge $14.50 for this necessary part!

SET OF SHELLHOLDERS

Eleven of the most popular sizes fit over 115 different cartridges. The chart (at left) is included with each shell holder set.

- $14.00 more for greater savings
Lee Carbide Factory Crimp Die
A CARBIDE SIZER SIZES THE cartridge while being crimped, so every round will positively chamber freely with factory like dependability. The adjusting screw quickly and easily sets the desired amount of crimp. It is impossible to buckle the case as with a conventional bullet seating die. Trim length is not critical so this extra operation takes less time than it would if cases were trimmed and chamfered. Revolver dies roll crimp with no limit as to the amount. A perfect taper crimp is applied to auto-loader rounds. The crimper cannot be misadjusted to make a case mouth too small to properly head-space. A firm crimp is essential for dependable and accurate ammunition—it eliminates the problems of poor ignition of slow burning magnum powders.

Short Bottle Neck Collet Style Factory Crimp Die
Incorporates a collet to apply a rifle type crimp to the case. Makes these very difficult to crimp cartridges a delight to reload. Bullets do not need a crimp groove, as the collet is so powerful it will form one.

Lee Collet Style Factory Crimp Die
Popular with cast bullet shooters that wish to use oversize bullets, also very popular when reloading for heavy recoiling revolvers. No other crimping system can apply as secure a crimp as the Lee collet style Factory Crimp. No crimping groove required in jacketed or cast bullets, the die is so powerful it will form a crimp groove if one is not present.

Taper Crimp Die
The Lee Taper Crimp Die is hardened steel, designed to overcome crimp problems caused by poor die design. These dies offer little or no advantage when used with 1980 or newer Lee Dies. Jacketed bullets must have a crimp groove. TAPER CRIMP DIE 13.98
Lee Collet Necksizing Dies
For best accuracy, longest case life and no resizing lubricant. Only the neck of the case is resized. The body is untouched—retains perfect fit to your gun’s chamber. Cases should have been fired in your firearm only. Benchrest crowd first choice, there is no other die that can produce a more accurate cartridge.

Lee Pacesetter & RGB Series Dies
FOR PRODUCING FACTORY-DIMENSIONED AMMO THAT RELIABLY FITS AND FEEDS IN ANY GUN
First choice for semi-auto actions. Full-length sizing is a must if you are reloading for more than one firearm or reloading cases that were fired in other firearms. Pacesetter 3-die sets include the LEE FACTORY CRIMP DIE.

Lee Ultimate Rifle Die Set
The Ultimate Set includes a full length resizing die that allows you to restore any case to factory original dimensions so that you can fire form in your gun and then reload using the superior Collet neck sizing die. Ultimate Rifle Die Sets include the LEE FACTORY CRIMP DIE.

EXCLUSIVE FEATURE
PACESETTER AND ULTIMATE DIE SETS INCLUDE FACTORY CRIMP DIE; THIS DIE FIRMLY CRIMPS BULLET IN PLACE AND APPLIES A FACTORY-STYLE CRIMP

Lee Collet Necksizing Dies
For best accuracy, longest case life and no resizing lubricant. Only the neck of the case is resized. The body is untouched—retains perfect fit to your gun’s chamber. Cases should have been fired in your firearm only. Benchrest crowd first choice, there is no other die that can produce a more accurate cartridge.

Lee Ultimate Rifle Die Set
The Ultimate Set includes a full length resizing die that allows you to restore any case to factory original dimensions so that you can fire form in your gun and then reload using the superior Collet neck sizing die. Ultimate Rifle Die Sets include the LEE FACTORY CRIMP DIE.
FACTORY CRIMP DIE

THE LEE FACTORY CRIMP DIE is the only effective way to crimp bottleneck rifle cartridges. Our Factory Crimp Die should be used on all loads used for hunting. Applying a factory crimp will always improve the utility of the cartridge, and in most cases, will also improve the accuracy.

The Lee Factory Crimp Die crimps the bullet in place more firmly than any other tool. It is impossible to buckle the case as with regular roll crimp dies. Trim length is not critical. Tests demonstrate that even bullets which have no cannule will shoot more accurately if cramped in place with the Lee Factory Crimp Die.

Factory ammunition is often more accurate and better able to withstand rough handling because the bullet is firmly cramped in place. A firm crimp improves accuracy because pressure must build to a higher level before the bullet begins to move. This higher start pressure insures a more uniform pressure curve and less velocity variation. Even powder selection is less critical. Until now, handloaders seated the bullet to touch the rifling to achieve similar results. This is not always possible nor desirable. The Lee Factory Crimp Die is included at no extra charge with Lee PaceSetter 3-Die Sets and Ultimate Rifle Die Sets. It’s just another added value that only Lee Dies offer.

FREE SHELL HOLDER.

YOU’LL STILL NEED A SHELL HOLDER WITH JACKETED BULLETS.

FACTORY CRIMP DIE

NOT PURCHASING LEE DIEs? YOU’LL STILL NEED A SHELL HOLDER

MOST LEE RIFLE DIE SETS INCLUDE A FREE SHELL HOLDER. Others charge $14.50 for this necessary part!
ALL LEE DIES ARE MACHINE HONED TO THE SMOOTHER POSSIBLE FINISH

Don’t confuse this with the surface polish that’s used by most manufacturers. A polish simply makes a shiny surface. It’s like trying to sand wood without backing under the sandpaper. The surface in Lee dies is progressively honed to a fine finish with no waves or ripples.

**Lee Resizing Lubricant**

ANOTHER FIRST BY LEE. We purchased the finest automotive deep draw lubricant and had it custom packed exclusively for us. Lee lube is pleasant to handle and you can thin it with water. Non-sticky, nonallergenic. Very little is needed; it goes a long way. Eliminates stuck and dented cases and makes sizing less work.

2 oz. tube 90006 3.98

**Lee PaceSetter™ 2-Die Set**

The same features as our PaceSetter 3-die set, just very limited Production. Does not include Factory crimp die, rather, a bullet seat and crimp die

LEE PACESETTER 2-DIE SET 41.98

**RGB Dies**

Compare to other brands costing twice as much and you’ll recognize what a fantastic bargain they are. We offer these only to show that when you buy Lee Dies — without all of the extras Lee customers have come to expect—the price is significantly lower, yet the quality is the best. Our tolerance is 50% less than the advertised amount of a popular and expensive brand. We guarantee these dies to be better than any other brand. If for any reason you’re not 100% satisfied—just return them to the factory with your sales slip and pay the difference of what you paid and the manufacturer’s catalog list price of the dies you want. We will ship them to you with our thanks for trying ours.

These dies are a Really Great Buy. They cost less, because like other die makers, we left out $32.00 worth of extras which are included in our PaceSetter™ dies. Do yourself a favor and check our PaceSetter dies.

RGB Series Dies only 26.98
Lee Collet Dies
There is no loading system that will load more accurate ammunition than Lee Collet Dies. We guarantee it in writing with every set. No one but Lee has ever dared make a guarantee like this — **Smallest group size or your money back.** A collet squeezes the case neck against a precision mandrel for a perfect bullet fit with minimum run-out. No case lube is needed. Cases last ten times longer, so the savings on only 35 cases will pay for the dies. Maximum accuracy is usually achieved by seating the bullet out far enough to touch or almost touch the rifling. This provides the shot start pressure normally supplied by the crimp. That’s why a dead length bullet seater is included to complete the most accurate reloading system ever made. These dies size only the neck to preserve the perfect fit of fire forming. Only reload cases that have been fired in your gun. Not recommended for autoloaders, slide or lever action guns. See list of sizes on pages 14-15.

Lee Collet for neck sizing: **40.98**

**Lee Ultimate Rifle Die Set**
Choose this die set for maximum versatility. The set features a full length-resizing die to return brass to factory new dimensions, perfect for reloading brass fired in other guns. The Collet Neck sizing die is used on your fire formed brass giving you best possible accuracy. No case lube required and cases last almost forever. The Easy Adjust Dead Length Bullet seating die foolproofs the bullet seating adjustment, and assures perfect seating depth every time. The Factory Crimp Die provides a secure crimp on bullets with or without a crimp groove. In most cases, it helps accuracy by providing a uniform higher start pressure and gives the finished cartridge factory-like accuracy and dependability.

The set is complete with shell holder, powder measure and famous Lee load data featuring all common brands of powder organized in an easy to read logical format.

In addition to best accuracy, you get these benefits

- **NO CASE LUBRICATION REQUIRED WITH COLLET DIE**
- **REDUCED OR ELIMINATES CASE TRIMMING**
- **TEN TIMES INCREASED CASE LIFE**
- **UNMATCHED SPEED AND CONVENIENCE**
- **MINIMUM BULLET RUNOUT**
- **MOST UNIFORM NECK TENSION**

**LEE ULTIMATE RIFLE DIE SET** **65.00**
INCLUDES COMPLETE COLLET DIE SET PLUS FACTORY CRIMP DIE, FULL LENGTH RESIZING DIE & RESIZING LUBRICANT SAMPLE.
LEE RIFLE DIES

FREE SHELLHOLDER INCLUDED WHERE SHOWN

The price of Lee Dies includes a free shell holder of the proper size. Some manufacturers charge $14.50 extra for this necessary part.

RELOADING PRESSES LAST A LIFETIME, so buying on what your budget allows makes the most sense. You’ll never regret buying a value priced press—you’ll always have a need for a simple press for miscellaneous jobs.

All Lee Presses feature compound toggle linkages. This permits full length sizing the largest magnum cases with ease. Many feature built-in spent primer catchers, tough powder paint coating and detailed instructions. Under normal use, all our presses will last a lifetime. For those that simply want the best, you can’t beat the “Classic Cast.”

THEY ARE THE BEST MONEY CAN BUY!

SINGLE STATION PRESS OPTIONS

Recommended for new reloaders or those who prefer to batch load.

Single Station Presses will load nearly any cartridge. Cartridges are loaded in a batch process—for example, 20 cases are de-primed and sized, charged, then bullets seated. This die changing process is sped up by the Lee Breech Lock Quick-Change System. Rifle case reloading is best accomplished on a single station press. For a beginner, a single station press in a kit is the best value.

www.leeprecision.com
**PROGRESSIVE PRESS OPTIONS**

**TURRET PRESSES** offer single station simplicity with near progressive speed. No need to unscrew dies; the turret advances to the next station automatically. Four pulls of the lever and you have a completed round. Perfect for moderate production of handgun ammunition. Deactivate the Auto-Index feature and you can batch reload the longest rifle cartridges. Twist and exchange the turret, snap in a new shell holder, and you’re ready to load your next cartridge.

**NEW! PRO 4000** Designed with the perfect balance of speed and simplicity. This press is so easy to set up and operate: if you have reloaded before, you likely won’t even need to look at the instructions. Cartridge changeover can be completed in seconds. Breech Lock quick change feature in all four positions. You’re also going to enjoy using this press for simple case processing like depriming and sizing a batch of cases for tumble cleaning or case trimming. With the auto index deactivated, you can use it as the handiest single station press ever made.

**DESIGNED FOR VERY HIGH PRODUCTION** of handgun cartridges. Add a bullet and pull the lever; other operations are automatic. Select these presses only if you are shooting more than 500 rounds per week. If loading limited quantities of many different cartridges, a Turret Press or Pro 4000 is your best choice. Changeover from cartridge to cartridge can become involved on the progressive presses.

COMPACT PRESSES

Lee Breech Lock Reloader Press

INCLUDES THE BREECH LOCK SYSTEM
An outstanding value. Exclusive balanced lever that can’t drop down to pinch your fingers. Unlimited hand clearance that only a “C” frame can offer. Works equally well with the right or left hand. Even if you already own a press, an extra press is always useful for decapping, bullet seating or bullet sizing.

90045 57.98

Breech Lock Challenger Press

The “O” frame press by design is the strongest and the most popular style press by far. Large opening and long stroke handles the largest belted magnums with ease. The primer catcher is positive and routes the spent primers directly to the trash can. Priming is a dream with the Lee Lever Prime System. Best of all, it includes the Breech Lock Quick Change Die System. Change dies instantly with a twist of the wrist; you’ll never have to re-adjust your die. Other features include all steel linkage with adjustable length lever. This same press will cost you more than twice as much from other manufacturers, and that’s without all of the Challenger’s features.

90588 99.00

Breech Lock Bushings

Breech lock bushings fit all Lee Breech Lock presses. Allows instant, accurate die changes.

90600 2-Pk. 11.98

Spline Drive Bushings

Breech lock quick change bushing with integral lock collar provides unmatched precision and convenience when adjusting dies. Split clamp positively locks die into position.

90063 2-Pk 16.00

Buy more for greater savings

90042 3-Pk 21.00

90095 4-Pk 25.00

Color coded for quick, positive die selection

Breech Lock Hand Press

Features the Lee Breech Lock System. A full size hand held reloading press, yet the tool weighs only 1¼ pounds and costs so little you will want more than one. No matter how much equipment you have, it’s great to have a portable hand press. No time is wasted mounting a tool to a work bench. When you’re finished—just pack it away.

90685 55.00

Breech Lock Hand Press Kit

THE PERFECT PORTABLE RELOADING PRESS KIT
Begin reloading at once. No wasted time mounting to a work bench. Pack it all in the box when finished. Great for apartment dwellers or loading at the range. Dies sold separately.

KIT INCLUDES
BREECH LOCK HAND PRESS
RAM PRIME
POWDER FUNNEL
CASE SIZING LUBE

90180 78.00

New, improved Breech Lock Ram Prime

Start priming in seconds, nothing to adjust.
Includes small and large priming assemblies, no tiny parts to fumble with or lose.
Effortless priming in the tightest pockets.
Uses any brand press shell holder.
Safe with all brands of primers.
Works in any Lee Breech Lock press or adapter.

91612 19.98

Lee Ram Prime

Primes on the press up-stroke for a more sensitive feel. Includes easy to change punches for both large and small primers. Fits all brands of presses. Use on old school presses, where you need to thread in dies.

90106 14.98

www.leeprecision.com
Perfect kit for someone starting out, but wants more than the basics. We have taken the world’s most popular Breech Lock Challenger press and combined it with the best accessories at a price less than what others charge for a “basic kit.” Highlights are the Deluxe Perfect Powder Measure, Auto Bench Prime with shell holder set, Deluxe Quick Trim and a copy of the latest version of Modern Reloading featuring over 38,000 loads for over 170 cartridges. Plus, the other case prep tools found in other kits. Purchased separately, valued over $354.00

90080 270.00

THIS KIT AND A SET OF LEE DIES IS EVERYTHING YOU NEED TO START RELOADING, AND IT’S ALL THE BEST PRODUCTS, SO YOU’LL NEVER OUTGROW THE KIT.

Features the same components as the 50th Anniversary Kit, but we have replaced the Safety Prime with the New Auto-Prime and a set of Auto-Prime shell holders. This kit is for those who prefer to prime off the press. If purchased separately—a $250.80 value.

90030 199.00

A COMPLETE POWDER HANDLING SYSTEM, with the most convenient and repeatable Perfect Powder Measure, plus the Lee Safety Scale, the most sensitive, safest of all powder scales. Fill your cases with the Powder Funnel. $169.94 value. Case Preparation tools include the Lee Value Trim case trimmer to trim on your reloading press (order cartridge specific trim die separately on pg. 28), and a Cutter & Lock Stud to trim your cases. (Order cartridge specific case length gauge separately on pg. 29). The Lee Chamfer Tool chamfers the inside and outside of the case mouth, and a tube of premium Sizing Lube is also included. A small and large Primer Pocket Cleaning Tool completes the case preparation package. $31.90 value.

But that’s not all! You get the large and small Safety Prime. Prime with push button convenience and is safe with all brands of primers. Never touch the primer from box to the case. $30.00 value.

Purchased separately $231.84 value 90050 190.00

**CLASSIC CAST PRESS**

**NEW**

Press now includes Breech Lock Adapter

Gives you the ability to quick change dies or remove the adapter to load the mammoth 50 BMG.

**RIGID CAST IRON FRAME, CAST AND MACHINED WITH PRIDE IN THE USA**

- The industry's largest opening, and longest stroke—handle adjusts to provide least travel of any press.
- Largest ram, 1 ⅛" diameter, supported by over 12 square inches of ram bearing surface.
- Spent primer disposal direct to trash can with attached tube.
- Powerful compound linkage with positive travel stop prevents press toggle or “cam over.”
- Rigid cast iron construction in a classic “O” design for maximum strength.
- Baked powder finish and all steel linkage make the Lee Classic Cast Press the most attractive and durable press made.

**LEE CLASSIC CAST PRESS**

90998   190.00

**Automatic primer arms with bottom of stroke priming for best feel. Includes both large and small priming arms. No more fumbling with tiny guides and springs when changing primer size.**
Lee Classic Turret Press

The sturdy iron base shows its Classic Cast roots. The long stroke allows rifle cases over three inches long to be loaded using the automatic index. Deactivate the Auto-Index and cases over 4 inches can be loaded. The rigid cast iron frame supports the ram with over 12 square inches of area. The industry’s largest ram is drilled completely through to dispose primers in an attached clear PVC tube. Every primer is caught — guaranteed.

Instant change turrets are the same as the famous Lee Turret Press. The Classic Turret uses the Lee Lever Prime System · LPS and the optional Lee Safety Prime tool makes priming on the press a delight. If you like to own the best, then treat yourself to the Lee Classic Turret. The finest reloading system made.

LEE CLASSIC TURRET PRESS 90064  165.00

Shown on optional Reloading Stand. Order #90068

Lee Safety Prime

Makes priming on the press a delight. Never touch the primers from box to shell. Primer flip tray features a CAD designed flipping surface that instantly rights the primers. Change primer size in seconds. Primers are dispensed with a satisfying click of the primer feed trigger.

POWDER MEASURE RISER FOR SAFETY PRIME 90041

Lee Safety Prime

Makes priming on the press a delight. Never touch the primers from box to shell. Primer flip tray features a CAD designed flipping surface that instantly rights the primers. Change primer size in seconds. Primers are dispensed with a satisfying click of the primer feed trigger.

GET AN ADDITIONAL TURRET FOR YOUR LEE PRESSES

EXTRA TURRET, 4 HOLE 90269  15.00

CLASSIC TURRET PRESS KIT

This kit and a set of Lee dies is everything you need to begin reloading pistol ammo. The Classic Turret Press is fast and convenient when loading handgun cartridges, with rates in excess of 250 rounds per hour possible.

The kit includes the Auto-DRUM powder measure and powder measure riser, perfect for all handgun and rifle cartridges. Large and Small Safety Prime are included making on press priming a delight! Instant Change Turret makes changing calibers a snap. Depress the auto-index and batch load the longest and largest rifle cartridges.

Complementing your press kit are the case conditioning tools to prepare your brass for loading. Includes Cutter, Lock Stud, Chamfer Tool, small and large Primer Pocket Cleaner, and a tube of Lee case sizing lube. Complete it with the cartridge specific Case Length Gauge. Verify your loads with the included Lee Safety powder scale.

Completing the kit is Modern Reloading Second Edition, 2019 revision with all new load data covering over 170 cartridges with more than 38,000 loads.

90304  310.00

NOTE: Rifle reloaders require SHORT or LONG CHARGING DIE | see page 33
VALUE TURRET PRESS

VALUE TURRET PRESS
EQUIPPED WITH THE LEE LEVER PRIME SYSTEM™

Proven design with compound leverage. No spring in this turret design. The turret is locked into a solid steel ring with big rifle bolt type lugs. Exclusive design puts the lugs on the circumference so there can be no tipping. The linkage is so powerful that the largest magnum cases are sized with ease. Effort required is so small that the usual heavy bench is not essential. The Lee Turret Press has built-in primer disposal tube and a comfortable roller handle. Even if you do not need all of these features, why pay more for anything less? Power and strength to spare, plus unequaled convenience. The Lee Turret Press is suitable for loading all rifle and pistol cases, but really shines when loading large quantities of handgun ammunition. This is the most convenient press made. Only a true progressive press is faster. Includes the Lee Lever Prime System with large and small primer arms. Features lift out convenience. Works with the Lee Safety Prime.

POWER AND STRENGTH TO SPARE, PLUS UNEQUALLED CONVENIENCE.

4 HOLE TURRET PRESS w/Auto Index 90932  125.00

LEE SAFETY PRIME

Makes priming on the press a delight. Never touch the primers from box to shell. Primer flip tray features a CAD designed flipping surface that instantly rights the primers. Change primer size in seconds. Primers are dispensed with a satisfying click of the primer feed trigger.

90997  30.00

LEE VALUE TURRET PRESS KIT

The Value Turret Press, along with the Auto-Drum Powder Measure, produces top quality pistol ammo in a hurry.

A finished round with a few pulls of the lever. Disconnect the Auto-Index and it’s large enough to handle monster belted magnum rifle cases. When it’s time to change calibers, simply lock in a new turret and begin reloading in seconds. In addition to the Turret Press and Auto Drum Powder Measure, the kit includes the Lee Safety Scale, unmatched for sensitivity, a primer pocket cleaner, cutter and lock stud to trim the cases and a chamfer tool to de-burr cases after trimming. Complete the case conditioning tools with the cartridge specific Case Length Gauge (see page 28).

A set of Lee Dies is all that is required to complete this reloading outfit. And all of this at a price that will allow you to pay for your investment in a matter of hours.

KIT  SECOND-GENERATION  progressive press priced less than many premium single station presses, the lowest priced 4 station progressive available. It is also the easiest to use progressive press ever made. Everything included to begin reloading nothing else to buy.

All the features of the Pro 1000 with an added fourth station to allow factory crimping and post sizing. Second generation design features a fixed tool head with quick-change bushings. The Safety Prime is safe with all brands of primers and makes on press priming fast and dependable. The ideal press for loading well used or mixed range brass. So easy to change you’re going to enjoy using this press for simple case preparation, like depriming before tumble cleaning. Deactivate the auto index and it is the handiest single station press ever made.

AUTOMATICALLY ADVANCES  cases up to 2 ½". Longer cartridges can be loaded by manually advancing.

AUTOMATIC Universal Case Feeder
MODULAR CONSTRUCTION allows as much or as little automation as the operator desires with no adjustments.
CARRIDGE CHANGEOVER  in seconds, including primer size with no adjustments. Color coded spline drive quick change breech lock bushings.
INCLUDES Large and Small Safety Prime and priming arms. Allows safe dispensing of any brand and size primer
INCLUDES HEX WRENCH FOR SHELL PLATE CHANGE AND STORAGE RACK FOR TOOLS. OTHERS CHARGE NEARLY $30 FOR THIS FEATURE.
INCLUDES ERGONOMIC WOOD GRIP ROLLER HANDLE. OTHERS CHARGE NEARLY $50.00 FOR THIS FEATURE.
INCLUDES BIN & BRACKET TO CATCH LOADED ROUNDS.

Grease fittings, along with a 1¾ inch diameter hard plated ram, insure a lifetime of service for even the commercial reloader

Stroke and clearance sufficient for largest magnum rifle cases
Loads long rifle cartridges progressively
Load progressively or singly without spilled powder or components.
Five stations so you can factory crimp and post size.
Automatic indexing
Tray feed top of stroke priming system
Removable turret
Loaded round ejector and case catcher
Quick change shell plate. No tools required

APP AUTOMATIC PROCESSING PRESS

Lee's got an APP for that!

THE APP

DEPRIME | PRIMER POCKET SWAGE BULGE BUST OR SIZE CAST BULLETS AS FAST AS YOU CAN OPERATE THE LEVER

INTRODUCING THE LEE AUTOMATIC PROCESSING PRESS—THE APP—THE FASTEST AND EASIEST WAY TO PREPARE CASES AND SIZE CAST BULLETS. IT ALSO FUNCTIONS AS A VERY CONVENIENT SINGLE STATION RELOADING PRESS

PATENTED IN LATE 2018, it is the first press of its kind with the ability to mount the die to the top or bottom of the press. This die mounting flexibility allows previously unheard of automation on a single station press. Now you can deprime, primer pocket swage, bulge bust or size cast bullets as fast as you can operate the lever.

HEAVY FOR ITS COMPACT SIZE, the press is manufactured from a variety of materials best suited for the application. The lever or handles are made of steel, topped with a molded grip we call the POWER GRIP. The grip is completely symmetrical, making either hand operation a delight. The upper and lower die carriers are aluminum and the low stress items are nylon or acetal copolymer. The upper carrier rides on two centerless ground and roller burnished columns. The upper die carrier is counter balanced by a centrally mounted coil spring. The counter balance prevents the handle from falling and pinching a finger.

THE APP IS A "FRAMELESS" DESIGN with nearly all the forces going directly to the dies through the steel linkages, rather than through the frame. As a single stage reloading press, it has almost unlimited visibility and hand clearance. Mounting is easy on any bench or table, with no underswing.

THE TOP CARRIER & BASE ARE MACHINED to accept LEE BREECH LOCK BUSHINGS, SPLINE DRIVE BREECH LOCK BUSHINGS, so they will accept standard 7/8—14 dies of any manufacture. The APP also uses standard press shell holders from most manufacturers. Includes one Spline drive breech lock bushing and universal type shell holder quick-change adapter.

A little over three inches of stroke allows sizing of the larger, belted magnum cartridges. Priced less than nearly all single station presses makes it a perfect starter press or a perfect companion press to an expensive.

Deluxe APP Press INCLUDES PRESS, AUTOMATION KIT, X-PRESS SHELLHOLDERS 2 · 4 · 19, BOTTLE ADAPTER 90933 110.00 MSRP

APP PRESS ONLY INCLUDES PRESS & BOTTLE ADAPTER 90951 75.00 MSRP

APP Automation Kit

With the Automation package, the APP becomes the world's fastest single stage press. Now you can deprime cases, size cast bullets, swage primer pockets, etc. as fast as you can cycle the lever!

The Automation Kit includes a revolutionary new kind of CASE AND BULLET FEEDER. Jaws automatically open and grasp the bullet or case—then rapidly position the case or bullet into the operating position. Once in position, the jaws instantly open and return for the next case or bullet. It is fascinating just cycling the press empty, watching the jaws open and close as it cycles back and forth. Includes feed tubes, tube supports, risers, case slider and 22 cal. bullet feed jaws. All of the features present on the Deluxe APP No. 90933 APP Automation Kit 90951 50.00

Deluxe APP shown on optional Reloading Stand #90688 with Bin & Bracket accessory #90687

www.leeprecision.com

X-PRESS SHELLHOLDER

The APP gets its speedy operation in part, by the use of a new shell holder. We call it — X-PRESS SHELL HOLDER — it allows the case to pass through the shell holder after the operations are performed.

LISTINGS ON NEXT PAGE
BULGE BUSTER KIT
FOR THE NEW LEE APP

Lee APP Bulge Buster Kit
with appropriate Lee Factory Crimp Die restores free function of rimless cases that have low base bulges. Low base bulges usually occur from chambers that do not fully support the cartridge or cases resized in carbide dies from manufacturers other than Lee.

APP BULGE BUSTER KIT 91572 19.98

PRIMER POCKET SWAGE KIT
DESIGNED EXCLUSIVELY FOR THE LEE APP PRESS

Now you can swage primer pockets as fast as you can operate the press lever.

Primer Pocket Swaging is necessary when reloading brass that have cramped primer pockets, most cases used in military or non civilan applications have this crimp. Typical cases that you will encounter primer pocket crimps are .45 ACP, 223 (5.56mm), 30-06, 308 (7.62x51), 9mm Lugur and special law enforcement 40 S&W.

The hardened steel swage punch is automatically extracted from the primer pocket by five 400 pound force disc springs. Breech lock die body installs in seconds no adjustment required.

Primer pocket swaging is so fast you'll want to swage all range brass. Nothing reduces priming problems on a progressive press more than properly swaged primer pockets. Surplus military and police department brass is a great low cost source of cases.

Complete swaging set includes automatic swage die, small and large swage punches, and small and large push rods.

A universal shell holder adapter allows you to use your press shell holder or X-PRESS shell holder to swage any brass.

APP PRIMER POCKET SWAGE KIT 91582 50.00

DECAPPING DIE
An absolute must for those who clean cases before reloading. No cleaning or lubing needed when using this die. Tough, almost unbreakable decapper easily removes crimped in primers. Fits cases up to .560” in diameter; up to 3.125” long.

90292 14.98

UNIVERSAL CASE EXPANDING DIE
Gently flares the case mouth to accept cast bullets without shaving. Works great to prevent damaging the moly and low friction coatings found on today’s high performance jacketed bullets. Includes neck plugs for .22 cal through .45 cal. Works on everything from the .22 Hornet to the largest Ultra Mag. Costs so little and works so well you can’t afford to be without one.

90798 16.98

BREECH LOCK BULLET SIZING KIT
FOR THE NEW LEE APP

Breech Lock Bullet Sizing Kit

THE KIT INCLUDES THE MOUNTING BODY INCORPORATING THE LEE QUICK CHANGE BREECH LOCK FEATURE. The body accepts our new low cost bullet sizing die. The new sizing die is high carbon steel and specially tapered to reduce sizing effort. The sizing die is retained in the mounting body with a dual threaded bottle adapter. Bullets are sized nose first; this is the most accurate and causes the least distortion. Best of all no special top punches are required. Will seat and crimp gas checks while sizing.

Great for powder coated or liquid lubricated bullets. All bullets must be lubricated, order LEE LIQUID ALOX or your favorite coating.

BREACH LOCK RAM PRIME
Start priming in seconds, nothing to adjust.
Includes small and large priming assemblies, no tiny parts to fumble with or lose. Effortless priming in the tightest pockets. Use any brand shell holder. Safe with all brands of primers. All primers. Works in any Lee Breech Lock press or adapter.

91612 19.98
**Lee Deluxe Quick Trim Case Trimmer**

The Deluxe Quick Trim Case Trimmer quickly and precisely trims your brass to the correct length at the same time it chamfers the inside and outside of the case mouth. No calipers, measurement or adjustment required. Simply install the appropriate quick trim die in your press and start trimming. A click adjustable stop allows trim length adjustment in .001 of an inch increments. Allows the user to shorten case to a uniform shorter length than standard, reducing trimming frequency. Includes snap on chip catcher.

Lee Case Trimmer

After a case has been loaded a few times, it will stretch beyond maximum length and must be trimmed. There is no better system to check and trim cases than with the Lee Case Length Gauge. You don’t need an expensive caliper to set length and never waste even a single case setting up with the cut and trim system common to all other brands. The piloted cutter assures the case mouths are absolutely square and true to the case neck. Best of all, the fixed length design assures it will never go out of adjustment.

The Cutter and Lock Stud works for all calibers. You will need only one, The Case Length Gauge (Pilot) and Shell Holder must be ordered as Case Length Gauge and Shell holder for each caliber — see size listing at right. You can trim cases by hand, use an electric drill or the Lee Zip Trim.

For positive and accurate trimming, use Lee’s new Lee Zip Trim. The simplest way to check the case and trim to the correct safe length is with a Lee Case Trimmer.

Chamber Tool Must be used after Case Trimming. Unique design cuts fast and primer pocket cleaner. 90950 12.98

Case Conditioning Kit 90101 2.98

Decapping & Base Easily removes crimped in primers from military cases. Works on 25 ACP up to the largest belted magnums. Three hardened steel jaws gently center case while the spindle locks the case head. Must be used after Case Trimming. Unique design cuts fast and primer pocket cleaner. 90010 2.50

Zip Trim Power Head Rotates case like a lathe. Quickly trim, chamber and polish your case. Hardened steel spindle accepts knurled shell holder or 3 jaw chuck. Features two permanent mounting lugs and socket to accept "D" clamp for portable setup. 90999 26.98

3 Jaw Chuck Works on 25 ACP up to the largest belted magnums. Three hardened steel jaws gently center case while the spindle locks the case head. Install and remove cases with a fraction of a turn. 90068 19.98

Case Spinner Stud Optional case spinner spindle with drill shank for use with the 3 Jaw Chuck, turns any electric drill into a high speed case polisher/lathe. Also works great to hold cases for neck turning or trimming. 90067 5.98

Lee Bulge Buster Kit Assure your mixed brass is bulge free with the Bulge Buster Kit and appropriate Lee Carbide Factory Crimp Die. This push through die adapter will quickly remove the annoying bulge rings that shell holder constrained dies simply can’t reach. The Bulge Buster Kit includes extension sleeve, push through punch, catch container and complete instructions. And it’s fast — you can reprocess your cases as quickly as you can handle them. CARBIDE FACTORY CRIMP DIES, SEE PAGE 9

Bulge Buster Kit 90487 19.98

Catch Container

**Note: Case length gauges can be custom made for $18.00 plus shipping & handling. See Lee Precision Website for details.**
THE EASIEST, MOST CONVENIENT BENCH MOUNTED PRIMING tool ever. Symmetrical design allows effortless right or left hand operation. Comfortable lever with just the right amount of mechanical advantage effortlessly seats even the most difficult primers with just finger pressure. Perfect mechanical advantage to feel the primer seating completely home into the primer pocket.

Includes priming assemblies for large and small primers. Change primer size or shell holder in seconds.

Includes the patented folding tray—go from box to priming in seconds. No need for a heavy bench; fits the Lee Bench Plate or mount to a board for a portable setup.

Auto Bench Prime
90700 36.98

Tray’s built-in flipping surface quickly rights and orients primers—go from box to priming in seconds. Patented elevator pin safely isolates a single primer for priming. Allows most primer brands and types to be safely tray fed. The convenient hinged cover allows you to individually feed primers if restricted by the primer manufacturer.

BREECH LOCK RAM PRIME 91612 19.98

Folding Primer Tray
TWO PACK 90606 6.00
Lee Ergo-Prime

Premium hand held priming tool with all the features of the world's most popular Auto-Prime, with ERGOnomic design. The Ergo Prime's highly sculpted body fits your hand perfectly, along with a long smoothly contoured finger lever that easily installs the tightest primers. Finger tip operation provides unmatched sensitivity and comfort, especially for older hands. Change primer size in an instant—no tools or disassembly required, makes the Ergo-Prime not only the most comfortable, but also the best looking tool made. Comes packed in a convenient storage box to keep your tool and shellholders together.

New Auto-Prime

The original and world's most popular hand held priming tool. Fast and economical hand held priming with unmatched feel and accuracy. Comes packed in a convenient storage box to keep your tool and shellholders together.

Save even more! Purchase a kit!

PRIMING TOOL

SHELL HOLDER SET

With 11 Shellholders for LEE PRIMING TOOLS AND THESE OTHER FINE TOOLS—K&M, SINCLAIR, HAND PRIMING TOOLS+and+SHELLHOLDERS

Packed in a lifetime plastic box

All off-press priming tools use special, but inexpensive priming tool shell holders, so there's no need to endlessly swap press shell holders to prime.

PRIMING TOOL STORAGE BOX

Holds your Ergo-Prime or New Auto-Prime tool. With room for 18 priming tool shell holders.

Set of Shellholders

Eleven of the most popular sizes fit over 115 different cartridges. The chart (below) is included with each shell holder set.

#1 · 2 · 3 · 4 · 5 · 7 · 8 · 9 · 10 · 11 · 19

Red Storage Box Only

Shell Holder Set

Includes the New Auto-Prime, and nice molded storage box. Holds everything, including a complete set of shell holders. This kit comes with B of the most popular priming tool shell holders, works with over 130 different cartridges. 1, 2, 3, 4, 5, 11, 12, 19. Holds an additional B shell holders. This kit is a convenient way to keep your tool and shell holders all in one spot.

New, removeable tray

Unfold tray and place on top of box of 100 primers.

Flip tray over to deposit the primers.

Shake tray to upright all twin primers. Fold and close cover.

Slide the flow control to LOCK.
DELUXE PERFECT POWDER MEASURE AND THE ORIGINAL

INCLUDES THE NEW POWDER MEASURE BOTTLE ADAPTER

DELUXE PERFECT POWDER MEASURE

QUALITY CONSTRUCTION
This powder measure features a high pressure die cast, diamond-machined body. The precision-machined rotor drum is cast from brass, which is naturally anti-static and spark proof.

ELIMINATES CUT POWDER AND JERKY ACTION
A soft elastomer wiper strikes off the metering chamber rather than cut the powder. You’ll be surprised at how smoothly the rotor operates. More importantly, you will enjoy the most uniform of charges.

EASY TO SET & READ MICROMETER METERING CHAMBER
Powder charge adjustment is accomplished with a true micrometer adjustable metering chamber. The metering chamber is aluminum with a black anodized finish. Features a crisp, permanent, laser engraved scale. The brass micrometer thimble is engraved with .001cc graduations and has a releasable detent lock. With most rifle powders each click is about a 1/10 of a grain, perfect for working up a load.

CHANGING POWDER IS FAST AND EASY
Features easily removable hopper with an on/off valve so you can quickly return unused powder to its original container or switch to another type. The hopper feeds to a pre-measuring chamber allowing precise charges regardless of the powder level in the hopper, eliminates the need for an extra powder baffle.

QUICK CHANGE DRUMS
One of the nicest features is the ability to use the new Lee standard quick-change drums (product # 90453). These low cost drums can be preset to your favorite charge and swapped out in seconds.

DELUXE PERFECT POWDER MEASURE 90699

75.00

Lee Powder Measure Kit
Fifteen uniformly graduated and proportioned powder dippers. Slide card shows the grains of powder each measure will dispense of every type of powder. Powder measures are inherently safe as they cannot get out of adjustment. That’s why powder dippers continue to be the first choice of reloaders who load in small quantities.

90100  12.98

Lee Safety Scale
Safety and accuracy are the most important features
This is the only scale that can never get out of adjustment. The beam is made from a very tough phenolic, the same type material used on table and counter tops. Phenolic is tough but, like glass, it can’t be bent. Even if dropped you can feel confident that if it did not break it is still accurate.

90681  39.98

READ THIS if you already have a combination bullet and powder scale
Try this simple test to see how sensitive your scale really is. Cut a piece of regular writing paper or this catalog 5/16 inch square. With scale set on zero — drop the paper on the pan to see if it moves. It should read about .1 grain. Keep adding paper squares until it does move. The total number of squares needed to move your scale is your scale’s sensitivity. We have seen digital powder scales that are only sensitive to 1/2 grain (FIVE paper squares)! A Lee Safety Scale will move with the first paper.

POWDER MEASURE BOTTLE ADAPTER

POWDER MEASURE BOTTLE ADAPTER FITS ALL LEE POWDER MEASURES
Allows dispensing powder directly from the shipping container of most popular powder manufactures. Includes a crystal clear bottle that holds over a half a pound of ball powder. Works on all of these and many more.

(53mm or 43mm thread)
Dispensing powder directly from the bottle assures positive identification of the powder type.
Adapter is manufactured from Polypropylene — resistant to attack from all types of powder. Now you can turn off the powder flow and store your powder in its original container with no fear of misidentifying or damage to your hopper from chemical attack. Viewing window allows monitoring powder level in use without removing bottle.

Bottle Adapter  91586  8.00

Powder Measure Stand
Heavy, powder coated steel construction
7/8” mounting hole for all popular measures
Includes 3 no slip feet
Rock solid mount improves measure consistency
Space saving freestanding design is portable and convenient
Works with other brands of powder measures
Powder Measure Stand  90587  35.00

**Lee Pro Auto-Disk Powder Measure**

Commercial reloaders or competitive shooters first choice! Elastomer wiper and polytetrafluoroethylene (PTFE) non-stick metal casting make this the smoothest operating measure. Large hopper with integral shut-off valve makes changing powder or disks super convenient. Brass thumbsnuts attach the hopper to the body so you can change disks with no tools. Rubber wiper and seal prevents powder shearing and makes it more leak resistant with fine-grain powders. Increased safety with positive pull-back lever.

The measure is attached to the die with a swivel adapter, allowing easy positioning and quick removal when changing cartridges. Included positive pull back lever reduces the chance of double charge when progressive reloading.

Powder Measure Riser
Installs between the Lee Powder through Expanding Die or Rifles Charging Die and Powder Measure. Allows convenient use of other brands of dies that have extended adjusting screws and provides clearance for the Lee Safety Prime.

Powder Measure Riser
90041         9.98

Only Lee Dies permit charging the case while expanding the case mouth.

**NOTE** Pro Auto-Disk and Auto-Drum Powder Measures must be used with the powder through expanding die supplied with all Lee pistol dies, or Lee Rifle Charging Dies (see left). These dies may be purchased individually. Sizes listed on page 5.
ELECTRIC MELTERS

**Lee Pro 4-20**
Large diameter high capacity pot, holds approximately 20 pounds of lead. Nearly 4 inches of clearance under the spout accepts all brands of bullet molds and most sinker molds. It also includes an adjustable mold guide to quickly and accurately position any mold for pouring.

This second generation design incorporates the famous Lee patented high-efficiency design and dependable remote sensing thermostat, in a dust tight housing. Long life 700-watt tubular heating element assures quick melting and rapid recovery. Micro adjustable, flow control valve adjusts instantly with a twist of the screwdriver. Front mounted low maintenance replaceable valve spout allows instant reseating with a turn of a screwdriver.

Lee Pro 4-20
- 90947 110 Volt 108.00
- 90948 220 Volt 109.00

**Magnum Melter**
Large 4” diameter pot allows easy access for the ladle caster. Same high efficiency design that has made Lee pots the most popular. Melt time is less than 20 minutes with just 700 watts. 20-lb. capacity for the longest casting session.

Magnum Melter 110 Volt 90949 82.00

**Lee Production Pot IV**
Large, deep pot holds approximately 10 pounds of lead. Melt time is less than 20 minutes. Pour spout up front where it belongs so you can see what you're doing. Infinite heat control. Uses only 500 watts of power during heat-up and a lot less to maintain temperature. Large, stable base for safety. 4” of clearance under the spout is high enough to accept all brands of bullet molds and most sinker molds.

Lee Production Pot IV
- 110 Volt 90009 89.98
- 220 Volt 90008 94.98

**Lee Precision Melter**
High speed melter with an infinite heat control for the serious shooter. Easily handles 4-cavity molds. Takes less than 15 minutes to melt 4 pounds of metal. Same infinite heat control as used on the Production Pot. 500 watts AC only. Guaranteed 2 years.

Lee Precision Melter
- Precision Melter, 110V 90021 57.98
- Export Model, 220V 90024 59.98

**LEE MOLD MALLET**
Features ash hardwood construction. Cut the sprue and release the bullets with one handy tool. Ergonomic design makes it convenient and comfortable to use with long casting sessions. Mallet is 10 inches long.

Lee Mallet
- 90084 10.00

**LEE INGOT MOLD**
Use to cast 1/2 and one pound ingots. Perfect for remelting and alloying. Wood handles stay cool. Aluminum mold is lightweight and rustproof.

Lee Ingot Mold
- 90029 16.98

**LEE LEAD LADLE**
A convenient size ladle for bullet casting. Works equally well for right and left handers. Handy for skimming and stirring metal.

Lee Ladle
- 90026 6.98

**WARNING** Melting lead and casting lead objects will expose you and others in the area to lead, which is known to the State of California to cause reproductive harm and cancer. For more information, www.P65Warnings.ca.gov. See instructions on REDUCING EXPOSURE supplied with product.
Bullets must be lubricated for sizing, order Lee Liquid Alox below, good for thousands of bullets.

Universal Case Expanding Die
Gently flares the case mouth to accept cast bullets without shaving. Works great to prevent damaging the moly and low friction coatings found on today’s high performance jacketed bullets. Includes neck plugs for .22 cal through .45 cal. Works on everything from the 22 Hornet to the largest Ultra Mag. Costs so little and works so well you can’t afford to be without one.
90798 16.98

Hardness Testing Kit
Featured product in Chapter 30 “Modern Reloading.” No more wasted components shooting too soft or too hard lead. Cast and load with confidence knowing your alloy is up to the job. Quickly and precisely check hardness of your lead alloy. Exclusive conversion chart tells the maximum operating pressure of any lead alloy.
90924 90.00
INCLUDES CALIBRATED HARDENED STEEL BALL INDENTER
3” BLOCK CRADLE SNAPS INTO STANDARD PRESS RAM
20 POWER 4-LENS OPTICAL MEASURING MICROSCOPE

Bullet Sizing Kit
Fastest and easiest way to size cast bullets. Standard 7/8 x 14 threads fit any reloading press. Bullets are pushed through the sizing die nose first, so no special nose punches are needed. Gas checks are automatically seated and cramped in place. Sized bullets captured in the special container. COMPLETE FOR ONE SIZE 25.98

Breech Lock Bullet Sizer Kit
FASTEST AND EASIEST WAY TO SIZE CAST BULLETS

KIT INCLUDES the mounting body incorporating the LEE QUICK CHANGE BREECH LOCK FEATURE. The body accepts our new low cost bullet sizing die. The new sizing die is produced of high carbon steel, and specially tapered to reduce sizing effort. The sizing die is retained in the mounting body with a dual threaded bottle adapter. Bullets are sized nose first; this is the most accurate and causes the least distortion. Best of all no special top punches are required. Will seat and crimp gas checks while sizing.

Great for powder coated or liquid lubricated bullets.
All bullets must be lubricated, order Lee Liquid Alox or your favorite coating.
Breech Lock Bullet Sizing Kit 91532 15.00

Lubricating Bullets
Traditional bullet lubricating methods of placing lube only in the grooves are inferior to the modern method of coating the entire bullet with Lee Liquid Alox. This places the lube where needed, on the surfaces that rub against the bore.

Try this with your bullet lubricant

Lee Liquid Alox
Lee Liquid Alox gives better accuracy because it eliminates leading. The lube coats the entire bullet like a thin jacket and dries to a soft, varnish-like finish that really clings. The dried coating does not degrade gunpowder. Easy to apply; eliminates the need for sizing of most cast bullets. While it works well with all cast or swaged bullets better than any other lube, it works most economically with micro band bullets, which are designed for tumbling.

**MOLD BLOCKS** Made from Aluminum because of the exceptional molding qualities.

**MOLD CAVITIES** CNC-machined for unmatched roundness and size control.

**MOST BULLETS** From Lee Molds can be used as cast without sizing.

**DOUBLE CAVITY MOLDS**
Handles and sprue plate included.

**HOLLOW BASE MOLDS**
These are available in single cavity only. They have self-centering automatic core pins for the fastest possible molding. Handles and sprue plate included.

**SIX CAVITY COMMERCIAL QUALITY MOLDS**
These are made for heavy duty volume production. The mold blocks have steel bushing and alignment pins for lasting precision. Price includes a cam operated sprue plate to eliminate the pounding common to ordinary molds. The sprue plate is hard anodized and held down with wave washers at each end. No finer mold can be purchased at any price. Handles extra.

**MOLD HANDLES**
Precision steel mold handles fit not only the Lee Six Cavity molds and 18 Cavity Buckshot molds, but most other brands of one and two cavity molds. Priced low enough so you can have a set for every pair of blocks.

**MICRO BANDS** Usually require no sizing.
The bullet shank has many shallow grooves for maximum liquid lubricant retention. A great way to make bullets in quantity with minimum time, effort and equipment. More accurate than ordinary cast bullets. The reduced friction of the micro bands gives you more velocity with less pressure.

**Micro Band Groove**
For Liquid Alox 90177
The reduced friction of the micro bands allow a higher velocity with the same pressure as conventional lube grooves.

---

**Lee Mold Blocks**
Also works well with Lee Liquid Alox designed for old style hard lubricants.
## PISTOL BULLET MOLDS

**LEE MOLDS FEATURE**

**TROCHOIDAL VENTING**

Unique venting on the mold face and sprue plate mating surface allows consistent and effortless fill out.

### CUSTOM MOLDS

We can produce custom bullet molds within certain limits. The prices are the same as our standard molds, but there is a tooling and set-up charge of $250.00. If interested in this service, please access design assistance sheet on www.leeprecision.com. This outlines the basic limitations of our manufacturing process.

### CUSTOM LUBE & SIZE KITS

Available factory direct for $40.00 plus S&H. leeprecision.com/custom-lube-and-sizing-kit.html

### WARNING

Melting lead and casting lead objects will expose you and others in the area to lead, which is known to the State of California to cause reproductive harm and cancer. For more information, www.P65Warnings.ca.gov. See instructions on REDUCING EXPOSURE supplied with product.
Cast Minie Bullets

*An extremely popular, traditional size Minie bullet. Available in 58 caliber only. Certainly a must for authentic muzzle loading shooting.*

**R·E·A·L Bullet for Muzzle Loaders**

A solid bullet that loads easily even after many firings because of its unique cleaning action. Will not tumble. A perfect hunting bullet with heavy loads. Easy to cast. Shoots accurately even in greatly oversize barrels.

**Round Ball Molds**

- **Double Cavity With Handles**
- **12-Cavity Without Handles**

**Conical Bullet Mold**

**Grains**

- 45 Cal.: 200 90390
- 45 Cal. Oversize: 250 90394
- 50 Cal.: 300 90399
- 58 Cal.: 380 90400
- 58 Cal. Oversize: 440 90404

**Conical Bullet Mold for Black Powder Revolvers**

A super accurate bullet that is easy to load straight and true. Two lube grooves prevent flash ignition and lead fouling. More energy and far greater accuracy than round balls.

**Grains**

- 36 Cal. 375-130-1R: 90378
- 44 Cal. Rem. 450-200-1R: 90382
- 44 Ruger Old Army .450-220-1R: 90384

**WARNING** Melting lead and casting lead objects will expose you and others in the area to lead, which is known to the State of California to cause reproductive harm and cancer. For more information, [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

See instructions on REDUCING EXPOSURE supplied with product.
Lee Slug Mold
Load slugs for less than standard trap loads. The Lee DRIVE KEY slug is loaded in standard trap hull with standard wad and conventional folded crimp. Slugs loads are produced with any standard shot shell reloading press.

Lee 18 Cavity Buckshot Bullet Molds
Precision-machined molds produce 18 linked pellets per cast. Each cast produces enough pellets to load two 12 Gauge shotshells. Easily cast 3,000 pellets per hour. Handles shown not included. Order product No. 90005 on page 36.

Lee Load-All II
Lee Load-All II shotgun shells not only look better than those loaded on machines costing hundreds of dollars, but they usually have more uniform velocity and patterns. You can load just as fast as with any other brand of loader costing up to $200.

Load-All Options
Conversion To Another Gauge
The Load-All II can be easily and economically converted to another gauge with the conversion kit. The entire die carrier is replaced so no adjustments are needed. The conversion kit includes the die carrier, steel sizer, wad guide, shell holder, load data and instructions.

Lee Adjustable Shot Dipper
Accurately measure lead, bismuth and steel. Telescoping cup adjustable from ¾ to 1½ oz. Calibrated for lead shot. Works perfect for large pellet sizes. With steel, simply count out the pellets or weigh and set dipper accordingly.

LOAD SUGS FOR LESS THAN STANDARD TRAPLOADS
Lee Slug Mold
EXCLUSIVE DRIVE KEY POSITIVELY ROTATES THE SLUG IN RIFLED BARRELS AND ELIMINATES THE NEED FOR SUPPORT WADS OR BASE FILLERS; ASSURES POSITIVE AND SMOOTH DISCARD OF THE SABOT WAD.

Lee Load-All II
Lee Load-All II shotgun shells not only look better than those loaded on machines costing hundreds of dollars, but they usually have more uniform velocity and patterns. You can load just as fast as with any other brand of loader costing up to $200.

Twenty-four shot and powder bushings are included free. The bushings alone can cost several dollars each from other manufacturers—and they’re not as accurate as those made by Lee. Only Lee supplies molded bushings.

This is a time proven tool. There are hundreds of thousands in use world wide: in nearly forty years, we have yet to see one worn out. Written two-year unconditional guarantee and a lifetime warranty.
