

Recycling that's fun!

There is something very satisfying about recycling rough lead scrap into shiny bullets. It also assures a steady supply of low cost bullets. Double cavity molds cost less than a box of premium bullets. Load and shoot slugs or buckshot for less than trap shells. A huge selection of handgun, rifle and black powder molds.

LEE MOLDS are available from .22 cal to 12 gauge shotgun slugs. All Lee molds are CNC machined for accurate size control, and in most cases, can be used without sizing.
